

ZINC BORATE

Date of compilation: 02-08-2026 | Revised: 02-08-2026 | Version: 1

SECTION 1: IDENTIFICATION

1.1 GHS Product identifier:

ZINC BORATE
Zinc borate hydrate; 2ZnO.3B2O3.3.5H2O (typical commercial grade)
CAS: 1332-07-6

Other means of identification:

Not relevant

1.2 Recommended use of the chemical and restrictions on use:

Relevant uses: Flame retardant and anti-tracking/anti-arcing additive for plastics, rubber, coatings, textiles and cellulose insulation; corrosion-inhibiting pigment in paints and coatings; fungistatic additive. For industrial user only.
Uses advised against: All uses not specified in this section or in section 7.3.

1.3 Supplier's details:

SURAJ CHEMICALS
No 92, Govindappa Naicken Street, Shiva Complex, Chennai – 600001, Tamil Nadu, India
Tel: +91 - 7092722822, +91 - 9840284032 / +91 - 44 - 25393652, 42130281
Email: sales@surajchemicals.com | Website: www.surajchemicals.com
GST No: 33ACEPV8190L1ZZ

1.4 Emergency phone number:

Emergency Contact No: +91 - 7092722822, +91 - 9840284032

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture:

GHS:
Classification of this product has been carried out in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). Based on available data, the classification criteria for physical, health or environmental hazards are not met.

Not classified	No hazard class assigned under GHS criteria based on available data
----------------	---

2.2 GHS label elements, including precautionary statements:

GHS: No signal word required

Hazard statements:

None required based on classification.

Precautionary statements:

P260: Do not breathe dust.
P280: Wear protective gloves/eye protection.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P501: Dispose of contents/container in accordance with local regulations.

2.3 Other hazards which do not result in classification:

Fine powder may cause mechanical irritation to eyes, skin and respiratory tract through nuisance-dust effects. Not a PBT or vPvB substance.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substances:

Chemical description: Zinc borate hydrate
In accordance with Annex 4.3.3 of the GHS, the product contains:

Identification	Chemical Name / Classification	Concentration
CAS: 1332-07-6	Zinc borate — Not classified	≥ 98%

To obtain more information on the hazards of the substances, consult sections 11, 12 and 16.

3.2 Mixtures:

Non-applicable

SECTION 4: FIRST AID MEASURES

4.1 Description of necessary first-aid measures:

In general, no specific first aid measures are required. If in doubt, request medical assistance, showing the SDS of this product.

By inhalation:

Remove the person affected from the area of exposure and provide fresh air. Seek medical attention if irritation or discomfort persists.

By skin contact:

Remove contaminated clothing. Wash the affected area thoroughly with plenty of water and soap.

By eye contact:

Rinse eyes thoroughly with lukewarm water for at least 15 minutes, lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Seek medical attention if irritation persists.

By ingestion/aspiration:

Rinse mouth with water. Do not induce vomiting. Seek medical attention if the person feels unwell.

4.2 Most important symptoms/effects, acute and delayed:

May cause mechanical irritation to eyes, skin and respiratory passages due to particulate nature. No other significant effects known.

4.3 Indication of immediate medical attention and special treatment needed, if necessary:

Not relevant; treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

5.1 Suitable extinguishing media:
Suitable: Water spray, foam, dry chemical powder, carbon dioxide – select per surrounding fire.
Unsuitable: None known.

5.2 Specific hazards arising from the chemical:
Non-combustible, non-flammable inorganic solid. The product itself does not burn. Decomposition at very high temperature may release boron oxide fume and water vapour.

5.3 Special protective actions for fire-fighters:
No special measures required beyond those for the surrounding fire. Wear self-contained breathing apparatus and full protective equipment in enclosed or confined spaces.

Additional provisions:
Cool fire-exposed containers with water if safe to do so. Avoid generating and inhaling dust/fume during fire-fighting.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

For non-emergency personnel:
Avoid generating dust. Use personal protective equipment as described in section 8. Ventilate the area.

For emergency responders:
Wear protective equipment described in section 8. No special measures beyond standard good industrial hygiene practice.

6.2 Environmental precautions:
Avoid release of large quantities to drains, soil or water courses. Not expected to pose a significant environmental hazard at normal spill quantities.

6.3 Methods and materials for containment and cleaning up:
Sweep or vacuum up (avoid dust dispersal) and place in a suitable, labelled container for reuse or disposal. Avoid dry sweeping in a manner that raises dust; use wet methods or a vacuum fitted with a HEPA filter where practicable.

6.4 Reference to other sections:
See sections 8 and 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling:

A. General precautions for safe use:
Avoid generating and breathing dust. Use with adequate ventilation. Handle in accordance with good industrial hygiene and safety practice.

B. Technical recommendations for the prevention of fires and explosions:
Not applicable – the product is non-combustible and does not present an explosion hazard.

C. Technical recommendations on general occupational hygiene:
Do not eat, drink or smoke while handling the product. Wash hands after handling.

D. Technical recommendations to prevent environmental risks:
Avoid uncontrolled discharge of dust/powder to the environment.

7.2 Conditions for safe storage, including any incompatibilities:

A. Specific storage requirements:

Storage temperature	Ambient, < 40°C
Storage condition	Dry, well-ventilated area, in closed containers
Shelf life	Typical value – refer to current specification sheet

B. General conditions for storage:
Store in original, tightly closed containers/bags, away from strong acids. Protect from moisture ingress.

7.3 Specific end use(s):
Except for the instructions already specified, it is not necessary to provide any special recommendation regarding the uses of this product.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters:
No substance-specific occupational exposure limit is established in India for zinc borate. For particulates not otherwise classified (PNOC), the following general limits are commonly applied as guidance:

Identification	Occupational Exposure Limit Type	Value
Particulates not otherwise classified (PNOC)	Total dust, TWA (8 hrs)	10 mg/m³
	Respirable fraction, TWA (8 hrs)	3 mg/m³

8.2 Appropriate engineering controls:
Use local exhaust ventilation or dust extraction where powder is handled, weighed or packed, in order to maintain exposure below the limits in 8.1.

B. Respiratory protection:
Use a particulate (dust) filtering respirator where exposure limits may be exceeded or where dust is visibly generated.

C. Specific protection for the hands:
Protective gloves (e.g. nitrile or PVC) recommended for prolonged or repeated handling.

D. Eye and face protection:
Safety glasses or goggles recommended, particularly during bag opening, weighing or transfer.

E. Bodily protection:
Standard industrial workwear; dust-protective coveralls recommended for prolonged exposure.

F. Additional emergency measures:
Eyewash station recommended in the work area.

Environmental exposure controls:
Prevent large-scale release of dust/powder to the environment. See subsection 7.1.D.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

Appearance	
Physical state at 20°C	Solid (fine powder)
Appearance	Fine crystalline powder
Color	White
Odor	Odorless
Odour threshold	Not applicable

Volatility	
Boiling point at atmospheric pressure	Not applicable (solid)
Vapour pressure at 20°C	Negligible
Evaporation rate at 20°C	Not applicable
Product Description	
Density / Relative density at 20°C	2.80 – 2.90 g/cm³ (typical value – refer to current specification sheet)
Bulk density	Typical value – refer to current specification sheet
pH (10% aqueous suspension)	7 – 9 (slightly alkaline)
Solubility in water at 20°C	Practically insoluble (< 0.3 g/100 mL)
Partition coefficient n-octanol/water	Not applicable (inorganic solid)
Decomposition temperature	> 980°C
Melting point/freezing point	Typical value – refer to current specification sheet
Flammability	
Flash Point	Not applicable (solid, non-flammable)
Flammability (solid, gas)	Non-flammable
Autoignition temperature	Not applicable
Lower / Upper flammability limit	Not applicable
Particle Characteristics	
Median particle size	Typical value – refer to current specification sheet

Values above are typical for the commercial grade and may vary slightly by batch/grade; refer to current specification sheet for guaranteed values.

9.2 Other information:

Explosive properties	Not explosive
Oxidising properties	Not an oxidiser
Corrosive to metals	Not corrosive
Self-heating	Not self-heating
Water reactivity	Not reactive with water

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity:

No reactivity hazards known under normal conditions of use and storage. Reacts with strong acids to liberate boric acid.

10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions are not expected.

10.4 Conditions to avoid:

Shock/Friction	Contact with Air	Increase in Temperature	Sunlight	Humidity
Not applicable	Not applicable	Not applicable	Not applicable	Avoid prolonged moisture exposure

10.5 Incompatible materials:

Strong acids	Strong oxidisers
Avoid direct contact	Avoid direct contact

10.6 Hazardous decomposition products:

None under normal conditions. Boron oxide fume may form at very high temperature (fire conditions).

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects:

Based on available data, the classification criteria for acute toxicity, skin/eye irritation or corrosion, sensitisation, CMR effects, STOT or aspiration hazard are not met.

A. Ingestion (acute effect):

Low acute oral toxicity. Large doses may cause mild gastrointestinal discomfort.

B. Inhalation (acute effect):

Dust may cause mechanical irritation to the respiratory tract.

C. Contact with skin and eyes (acute effect):

May cause mild mechanical irritation due to particulate nature; not expected to be a skin or eye irritant per GHS criteria.

D. CMR effects (carcinogenicity, mutagenicity, reproductive toxicity):

Classification criteria are not met based on available data. Not listed by IARC.

E. Sensitizing effects:

Not known to be a skin or respiratory sensitizer.

F. Specific target organ toxicity (STOT) – single exposure:

Classification criteria are not met based on available data.

G. Specific target organ toxicity (STOT) – repeated exposure:

Classification criteria are not met based on available data.

H. Aspiration hazard:

Not applicable (solid powder).

Product-specific toxicological information:

Identification	Acute Toxicity	Genus
Zinc borate CAS: 1332-07-6	LD50 oral: > 2000 mg/kg bw	Rat
	LD50 dermal: > 2000 mg/kg bw	Rabbit

SECTION 12: ECOLOGICAL INFORMATION

Not classified as hazardous to the aquatic environment based on available data.

12.1 Toxicity:

Identification	Acute Toxicity	Species	Genus
Zinc borate CAS: 1332-07-6	LC50: > 100 mg/L (96h)	Non-applicable	Fish
	EC50: > 100 mg/L (48h)	Non-applicable	Crustacean

12.2 Persistence and degradability:

Inorganic substance; the concept of biodegradability is not applicable. Not expected to persist in a hazardous form under normal environmental conditions.

12.3 Bioaccumulative potential:

Not expected to bioaccumulate significantly.

12.4 Mobility in soil:

Koc	Henry	Dry Soil	Moist Soil
Not relevant	Not relevant	Low mobility	Low mobility

12.5 Results of PBT and vPvB assessment:

Not applicable (inorganic substance; PBT/vPvB criteria apply to organic substances).

12.6 Other adverse effects:

Not described

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Disposal methods:

Dispose of in accordance with local and national regulations, preferably through a licensed waste disposal contractor. Avoid release to drains or water courses. Empty containers may be recycled or disposed of as per local regulations after thorough cleaning.
Refer to national and local regulations on waste management.

SECTION 14: TRANSPORT INFORMATION

Transport of dangerous goods by land (ADR / RID):

14.1 UN number	Not applicable – not classified as dangerous goods
14.2 UN proper shipping name	Non-applicable
14.3 Transport hazard class(es)	Non-applicable
14.4 Packing group	Non-applicable
14.5 Environmental hazard	No
14.6 Special precautions for user	None
14.7 Transport in bulk (Annex II MARPOL 73/78, IBC Code)	Not relevant

Transport of dangerous goods by sea (IMDG):

14.1 UN number	Not applicable – not classified as dangerous goods
14.2 UN proper shipping name	Non-applicable
14.3 Transport hazard class(es)	Non-applicable
14.4 Packing group	Non-applicable
14.5 Marine pollutant	No
14.6 Special precautions for user	None
14.7 Transport in bulk (Annex II MARPOL 73/78, IBC Code)	Not relevant

Transport of dangerous goods by air (IATA/ICAO):

14.1 UN number	Not applicable – not classified as dangerous goods
14.2 UN proper shipping name	Non-applicable
14.3 Transport hazard class(es)	Non-applicable
14.4 Packing group	Non-applicable
14.5 Environmental hazard	No
14.6 Special precautions for user	None
14.7 Transport in bulk (Annex II MARPOL 73/78, IBC Code)	Not relevant

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations specific for the product in question:

It is recommended to use the information included in this safety data sheet as data used in a risk evaluation of local circumstances, in order to establish the necessary risk prevention measures for the manipulation, use, storage and disposal of this product.

Other legislation:

Manufacture, Storage and Import of Hazardous Chemicals Rules 1989
The Factories Act, 1948 (Act No. 63 of 1948), as amended by the Factories (Amendment) Act, 1987 (Act 20 of 1987)

SECTION 16: OTHER INFORMATION

Legislation related to safety data sheets:

This safety data sheet has been designed in accordance with Annex 4 – Guidance on the preparation of Safety Data Sheets of the Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

Texts of the legislative phrases mentioned in sections 2 and 3:

Not applicable – no hazard statements assigned.

Advice related to training:

Minimal training is recommended to prevent industrial risks for staff using this product, in order to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product.

Principal bibliographical sources:

The United Nations Economic Commission for Europe (UNECE); publicly available GHS classification references for the listed CAS number.

Abbreviations and acronyms:

The information contained in this safety data sheet is based on sources, technical knowledge and current legislation, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product; it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within Suraj Chemicals' awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this safety data sheet only refers to this product, which should not be used for needs other than those specified.

END OF SAFETY DATA SHEET
